FOR A PROPER JOB
avt

Item	Avit AV13060 Full Peak Hard Hat
Safety	This safety helmet meets the requirements of British Standard European Norm BS EN 397, providing protection from falling objects striking the top of the safety helmet.
Marking	UK 0321, CE 2754, BS EN 397. The size, shape material and manufacturing date are all marked on the helmet shell.
Warning	<p>Check the safety helmet before each use. Damaged safety helmets must be replaced immediately. The helmet is made to absorb the energy of a blow by partial destruction or damage to the shell and the harness and even though such damage may not be readily apparent, any helmet subjected to severe impact should be replaced.</p> <p>For adequate protection this helmet must fit or be adjusted to the size of the user's head. The helmet should not be adapted or modified, unless recommended by the helmet manufacturer, including for the purpose of adding attachments or removal of component parts.</p> <p>Do not apply paint, solvents, adhesives or self-adhesive labels, except in accordance with instructions from the helmet manufacturer.</p> <p>No part of the safety helmet is known to cause any innocuousness for the user nor are they known to cause any skin irritation. Nevertheless, it may happen that materials which come into contact with the wearer's skin could cause allergic reactions to susceptible individuals.</p>
Cleaning/ Maintenance	The helmet should be cleaned by wiping with a cloth moistened with warm water, and then the cap should be allowed to air dry. No strong or abrasive chemicals should be used. If the cap cannot be cleaned by this method it should be replaced.
Transportation/ Storage	Wrap the helmet with soft material and packed in cartons when transporting. Store the safety helmet in a dry place, sheltered from sunlight.
Service Life	The period of obsolescence of this product is 5 years.
